Project Lab 4
Mark Wagner
SDEV300-9389 – Prof. Abrom Cooper
April 12, 2019

For this project, I made two versions. The version I submitted used post requests to submit the comments, but initially the instructions appeared to call for a from that allowed concatenation of previous and new comments.

Doing all this taught me a ton of information about sessions, timestamps, and posting. PHP is truly incredible, thank you!
